

We want the FCC to keep their hands off our Telephone Privacy List. It has been a delight not to be terminally bothered by intrusions in our home by commercials. We love our house to be quiet and our phone calls to be personal ones. The Privacy List has been a blessing for us, and we will do whatever we must to have it continue forever. We insist on our right NOT TO BE BOTHERED. This Indiana Telephone Privacy Law has been just what we have needed and wanted. The FCC should keep their hands off of what has been a boon to people who, like ourselves, think it wonderful. Howard and Rosalyn Saz
